The premier organisation

in the field of control and distribution.

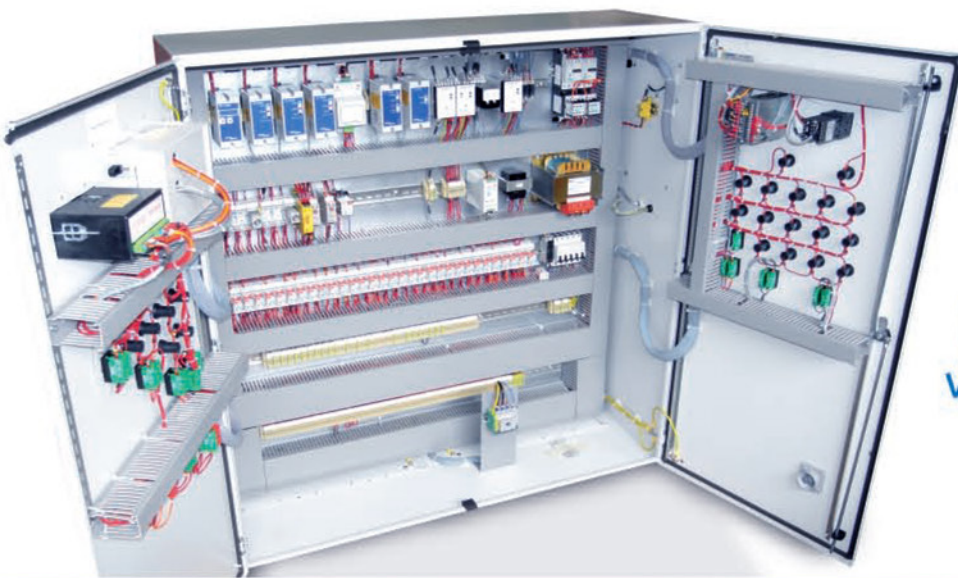

Clarke Controls have many years experience in the field of control and instrumentation. We provide expertly tailored solutions for OEM's and end users. Engineering forms the lifeblood of our organisation and our corporate goal is to be the **engineering company of choice for our clients.**

Offering a partnership rather than simply a product or service, we can help our clients harness every aspect of today's technology for the future benefit of their company. Clarke Controls offers new thinking and new solutions to respond to this challenging environment, and a track record of **providing control solutions and support services for the future.**
